

MODEL MSCS | MINATURE CURRENT SWITCH

BENEFITS/FEATURES

- DIN rail compatible or mount with integrated flanges
- Compact size fits in any space

APPLICATIONS

- Differential pressure across filters
- BAS
- HVAC
- Small industrial motors

DESCRIPTION

The **Model MSCS Miniature Current Switch** is a low cost solution for monitoring on and off status of light to medium current loads in compact spaces. This unit has a split core design and has a fixed set point of 0.15 amps. It is designed to detect changes in operating current to prevent motor belt loss, slippage, or mechanical failure.

SPECIFICATIONS

Amperage Range	0.15 to 60 A.
Output	NO.
Power Requirements	None, self-powered.
Temperature Limits	5 to 140°F (-15 to 60°C).
Humidity Limits	0 to 95%, non-condensing.
Isolation Voltage	300 VAC RMS.
Frequency	50/60 Hz.
Enclosure Rating	UL 94 V-0 flammability rated, ABS plastic housing.
Compliance	CE, cULus.
